

Q & A for Teachers

Q: Do you have a Teacher's Edition?

A: Yes - it contains detailed lesson plans that are age appropriate in content/length as well as both fun & easy to use! They also include individual assessments, and review pages. Note: they retail for \$14.75, but a perfect/glue bound spinal version is complimentary/included with a classroom (q=20) purchase of the Student Editions (discounts also apply there - see next Question below).

Q: Are there Educator/Volume Discounts?

A: Yes - we offer both types of discounts: the retail price of \$11.75 per Student Edition is reduced to \$8.75 for educators purchasing two or more. And, there are further volume discounts*.

*Further volume discounts: if you order 20 (=1 classroom) there is an additional 7% off of the already discounted \$8.75 rate. And, for each additional classroom (20) ordered the discount rate increases by 1%. For example: 2 classrooms (40-quantity) will = 8% discount off of the 8.75 rate; 3 classrooms (60-quantity) will = 9% discount; this continues to a maximum 15% discount (which is 9 classrooms).
